DETAILED OFFICE ACTION**Faxing of Responses to Office Actions**

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing or responses to Office Actions directly into the Group at (571) 273-8300. This practice may be used for filing papers, which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

The information disclosure statement filed on May 19, 2004 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because Non-Patent literature documents do not contain a “concise explanation of the relevance” of the information disclosed. It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-18 are rejected under 35 U.S.C. 102(b) as being anticipated by Shah (2003/0077413-A1).

Shah discloses in Fig. 1-5, a method of communicating comments or corrections to a document, a method of nondestructively modifying a sign document, and a pad of transparent sheets comprising: placing a transparent sheet (1) over a page or document sheet (12) having indicia (11); writing comments, corrections, additional verbal information or indicia (14) on the transparent sheet (1); returning the indicied document or sheet to any reader (Page 2, Col. 1 can view the transparent sheet); affixing the transparent sheet (1) to a document (12) by repositionable adhesive (5). Being able to lift the sheet (since adhesive is only at one edge) to view the unaltered form of the document while allowing the sheet to remain affixed to the document.

Art Unit: 3722

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Miles et al, Yorkston and Miles et al ('825) discloses similar transparent note sheets.
